## PRINCIPAL'S MESSAGE

Welcome to Friendship Elementary School!

The faculty and staff welcome you to our school! We thank you for trusting us with your most precious treasure, your child. Our goal is to guide students to become lifelong learners who think critically, solve big problems, think outside the box, and serve others.

As an instructional school leader, it is my obligation and calling to cultivate a school environment that develops and supports healthy teachers and successful students. Developing such an environment involves valuing and facilitating creativity, problem solving, self-sufficiency, communication, and trust. As a school leader in such an environment, I must lead by example with integrity, energy, creativity, collaboration, and compassion.

We strive to keep children safe and ensure their academic growth. However, this endeavor is one in which we need the collaboration of teachers, students, and parents. We value your presence, feedback, and support.

Kind regards,

Tracie Brack, Ed.D.  
Principal

## MISSION STATEMENT

The school's mission is to develop lifelong learners who can function successfully in society.

## BELIEFS

- We believe students are given the opportunity to learn, achieve, and succeed at their individual performance levels.
- We believe student self-esteem is fostered through a supportive and disciplined environment.
- We believe mutual respect among students and staff creates a school climate conducive to learning.
- We believe learning best occurs when students' developmental levels, learning styles, and goals are addressed through the use of all available resources.
- We believe all individuals within the school environment must be responsible for their own behavior.
- We believe each student has the right to a safe learning environment, free of disruptive behavior.
- We believe high expectations for students and staff are established and must be clearly communicated.
- We believe the ongoing professional growth of our faculty results in a more effective school environment.
- We believe a clean, attractive and functional environment enhances learning.
- We believe collaboration among community members, the board of education, superintendent, principal, teachers, students and parents results in a positive atmosphere where excellence is achieved and individuals are valued.

## HELP YOUR CHILD SUCCEED IN SCHOOL

Parents play an important role in helping their child succeed in school. Two keys are taking an active interest in the child's school experiences and helping the child develop self-esteem.

- Show an interest in your child's schoolwork and homework.
- Set aside a special time for your child to do homework. Provide a quiet place and necessary materials.
- Assist with homework, when necessary, but do not complete it for your child.
- Make only positive comments about your child's school program and teacher in front of your child.
- Avoid comparing one child with another. All students are unique individuals with different learning styles and rates.
- Build confidence and self-esteem in your child through praise and encouragement.
- Share the insights you have about your child with the teacher at parent/teacher conferences. This will help the teacher to better understand your child. Have at least one conference with the teacher during the year.
- Please read "to" or "with" your child each day.

## SCHOOL POLICIES

In order to gain a better understanding of certain aspects of the school program, a statement of school policies is published from time to time. Policies may change as the need arises. When all stakeholders abide by the policies there are fewer misunderstandings and more efficiency in the smooth operation of the school. Often, little details contribute to the harmony and well-being of all concerned in school operations. We appreciate your cooperation with upholding our school policies.

Hall County Board of Education policies take precedence over school policies. Copies of board policies are available online <http://www.hallco.org/boe/site/parent-toolbox/>
